A Message from the Executive Director

Eric Velstra

Habitat for Humanity's vision has always been to create a world where people have a decent place to live. It is clear, now more than ever, that our community and our nation need sustainable solutions to housing problems.

Habitat for Humanity alone cannot end poverty housing. With your help and many others like you, we can change the reality for future generations in our community and around the globe. Please consider joining us to make our vision a reality.
